**Attention: Mr. Chris Arnot
Director, Retail Energy and Water**

Dear Mr. Arnot:

Re: Direct Energy Regulated Services Regulated Rate Tariff Attestation Letter

Please accept this letter as confirmation that I have reviewed the rates to be filed by DERS for the month of July 2024. My concurrence with the calculated rates is based on DERS’ review of all of the calculations for the various rate components and I affirm that the rates have been determined in accordance with the 2023-2025 Energy Price Setting Plan (“EPSP ”), as approved by the Commission in Decision 27950-D01-2023.

I also confirm that the calculations are based on procurement of products at or better than target prices for the regulated rate, are correct and that these prices represent forward prices during, March 4, 2024, to June 21, 2024, for 7x24 and 7x16 products.

I further affirm that for July 2024, 100 percent of the portfolio is supplied through procurement as set out in the above noted decisions, totaling 47,120 MWh, with the percentages by source as set out in the following table, and there was no requirement to invoke the backstop mechanism.

July 2024 Procurement by Source (%)			
	NGX Screen	OTC Trades	Self-Supply
Flat (7x24)	0.0%	100.0%	0.0%
Peak (7x16)	0.0%	100.0%	0.0%
Overall	0.0%	100.0%	0.0%

DERS affirms that all actual data, where employed, is correctly stated and reflects the underlying records of the company.

Should you require additional information please contact the undersigned at 587-832-3709.

Yours truly,

Lori Armstrong
Senior Commercial Director
Direct Energy Regulated Services
